Cricket • SCI-FI • Gaming

EXPERIENCE

CANNY DIGITAL SOLUTIONS Pvt Ltd | Software Developer

01/2023 - Present | Chennai, India

- 1+ years iOS development experience with Objective-C, Swift, and SwiftUI.
- Proficient in API and RESTful web services integration.
- Integrated UIKit seamlessly, pioneered SwiftUI components for dynamic layouts.
- Specialized in creating genuine GUI for enhanced user experiences.
- Contributed to optimizing iOS applications for superior user satisfaction.

PROJECTS

SECURRA

iOS Developer | SwiftUI | 5 Months

Securra is an innovative healthcare application that empowers users to seamlessly manage their medical appointments and consultations. With Securra, users can book slots with their preferred doctors, create appointments for medical consultations, and even engage in video calls or chat sessions with healthcare professionals.

- Utilized streaming JSON parsing techniques, implemented Codable for efficient JSON decoding, and leveraged background queues for asynchronous parsing. Ensured efficient handling of large and complex JSON responses.

QMIN

iOS Developer | SwiftUI | 4 Months

The Qmin food delivery app delivers your favorite specialities from IHCL's iconic restaurants at your doorstep. Elevate your dining experience with a curated selection of gourmet dishes delivered to your doorstep.

- Implemented Grand Central Dispatch (GCD) for efficient multithreading, as Encountered performance issues due to UI lag during data fetching. utilized background queues for data retrieval, and applied caching mechanisms. Achieved a 40% reduction in loading times.

HOMEFY

iOS Developer | UIKit | 4 Months

Elevate your apartment living experience with Homefy app. A comprehensive app designed to prioritize the safety and wellbeing of the residents.

- Component Development • UI/UX Implementation • Integration with APIs
